

KIDSCREEN 2008

Australian Children's Production Companies

KIDSCREEN 2008: Australian Children's Production Companies is designed to give an overview of Australian companies involved in children's programming and production. The guide includes information about projects, company contact details and expressions of interest in co-productions.

Australia has a strong television production industry, especially in the area of children's programs. The 2006/07 slate of Australian and co-production children's TV drama comprised 109 hours (13 programs) with expenditure in Australia of A\$61 million from total budgets of A\$78 million. This was in line with the five-year average for expenditure and total budgets but slightly under the average of 122 hours. Most of the local children's TV drama was live action, while four of the co-productions were animated.

The Australian Film Commission (AFC) is proud to be associated with the development and production of Australian film, television and interactive digital media projects and to assist their promotion internationally. This guide is one of a range of AFC publications designed to inform buyers, festival directors and international producers about the Australian industry, its programs and their creators.

This guide has been compiled from information supplied by the companies themselves. The AFC has undertaken all reasonable measures to ensure this information is accurately represented and specifically disclaims any liability, loss or risk, personal or otherwise, which is incurred as a consequence, directly or indirectly, of the use and application of any of the contents. Due to space restrictions it has been necessary in some instances to reduce the listings.

Farm Tails

WINGED SPUR PRODUCTIONS

Since creating Kindifarm in 1992, Bryce and his crew have entertained more than two million Australian children in over 12,000 appearances with their menagerie of delightful farm animals. His experience in creating, organising and motivating his team to become the largest mobile animal farm in Australia has culminated in the establishment of Winged Spur Productions. Using this extensive knowledge, infrastructure and passion they provide "A country encounter that lasts forever". Winged Spur aims to create and produce original property for children's television.
